Amplification: Yes No

Referred by:

In order for us to provide you with an optimal performance, please note the following

- The harp may not be placed directly on an unstable surface such as grass or dirt. A solid 4' by 5' covering such as dance floor, wood, or tile must be provided by the client to protect the harp. It must be able to support approximately 300 lbs.
- When temperatures exceed 80 degrees, the instruments must be completely shaded.
- When temperatures drop below 65 degrees, a space heater must be provided for the musicians.
- The instruments cannot be exposed to rain, a mist system, or extreme weather conditions.
- If the vocalist requires a private rehearsal, the rehearsal itself will be conducted with VeeRonna at her home.
- If under any circumstances the musicians are unable to fulfill their contractual obligation, the fees paid shall be refunded or the musicians will do all that is reasonably possible to find a qualified substitute

By signing, I agree to the aforementioned terms
